[UK: Agency reclassifies iron-making "by-product"](#)

02/09/2007 (letsrecycle.com)

Blast furnace slag arising from iron and steel production will no longer be considered as a "waste", the Environment Agency has announced. The decision means that a Quality Protocol for the material will not be needed to set a standard for material to avoid controls under waste regulations..... [more](#)

[Procedure for decreasing environmental pollution produced by municipal solid waste landfills](#)

A Hungarian SME has developed a new procedure for decreasing environmental pollution produced by municipal solid waste landfills. It reduces the environmental damage effect of landfills. The offered technology is used for aerobic stabilization of mixed municipal solid waste. It can be used by local waste dumpsites or in waste management by local governments. The company is looking for industrial partners and state owned organizations interested in licence and commercial agreement. (Ref: 07 HU HUBU OIP9 -

03/09/2007)

[A manual, small-sized compactor for household use reducing the initial volume of waste up to 70%](#)

An Italian company working on environmental technologies has conceived a manual, small-sized compactor for household use with the aim of achieving separate waste collection and significantly reducing the initial volume of waste. The Company is available for license agreements. (Ref: 07 IT IRVI 01HX - 29/08/2007)

[Slow Run Plastics Crusher](#)

A Czech SME, highly experienced in the field of development and construction of innovative machines for processing of polyurethanes and other plastic materials, has developed an innovative device for plastic crushing. The company is looking for partners with interest in adapting the technology to their specific needs and with interest in concluding a commercial agreement with technical assistance. (Ref: 07 CZ CZBP 01CP - 09/08/2007)

[ISWA-NVRD World Congress](#)

From 24 to 27 September 2007 all eyes of the international waste management sector will be on Amsterdam. This lively cosmopolitan city will then be hosting the ISWA/NVRD World Congress 2007 organised by the NVRD, the Dutch Solid Waste Association. The congress gives you a unique opportunity to share your knowledge and experiences of sustainable waste management in an international forum; a chance to catch up with your international contacts and expand your network.

24 - 27 September 2007 Amsterdam, Netherlands

[2007 Recycling Waste Reduction Conference](#)

Waste Reduction Conference

26 - 28 September 2007 Calgary Alberta, Canada

[Sardinia 2007 - Eleventh International Waste Management and Landfill Symposium](#)

The Biennial International Symposia in Sardinia were established in 1987 in order to render ideas and experiences in the rapidly developing field of waste management and landfilling readily available to professional communities worldwide. Since then these Symposia have rapidly become the International Reference Forum where planners, operators, public officials and scientists present their relevant experiences and propose and discuss new concepts and technologies of landfilling and waste management. The 2007 edition promises to repeat the success obtained in previous editions. A stand at Sardinia 2007 is a unique opportunity for companies to reach major international operators in the field of waste management and sanitary landfilling.

01 - 05 October 2007 S. Margherita di Pula (Cagliari), Italy

[European Paper Recycling Conference 2007](#)

The European Paper Recycling Conference offers recovered paper merchants, brokers, consumers, mill representatives and equipment and service providers involved in the paper recycling industry an important forum to network with industry colleagues and discuss the latest market trends.

03 - 05 October 2007 Amsterdam, Netherlands

[WASTECON 2007](#)
