[High-efficiency and environment-friendly wet oxidation for treatment of organic waste](#)

A French research lab has developed a wet oxidation system for treatment of organic waste in hospital including sewage effluents, station wastewater/sewage, petroleum industry, food industry including slaughterhouses by-products, and paper mills. The technology is specifically designed for energy saving, cost-effectiveness, performance, compactness and environment-friendliness. License agreements and R&D collaboration

are sought. (Ref: 07 FR FMMT OJ8N - 28/11/2007) _

[Installation for co-generation by using biomass transformed in gases](#)

A small Romanian research company developed an installation for cogeneration by transforming biomass in gases. It is an ecological and efficient solution: by using 1.5 kg of biomass 1 KW/h electric energy and 1,3 KW/h thermo energy are obtained. Type of partner sought: research institute for technical cooperation or end-users for commercial agreement with technical assistance. (Ref: 07 RO RIAP OJ8A - 28/11/2007)

[Machine and method of electronic components disassembling from printed circuit boards](#)

A Basque technical centre has developed a simple and semi-automatic process for components disassembly focused on their later reutilisation, using a simple, inexpensive and viable system, as well as being safe from manipulation. It is mainly applied in the recovery of the components from printed circuit boards. A license agreement or technical collaboration is sought.

International Automobile recycling Congress

12 - 14 March 2008 Munich, Germany

[The 23rd International Conference on Solid Waste Technology and Management](#)

Researchers, educators, government officials, students, consultants, managers, community leaders, and others with expertise in solid waste are invited to submit papers for oral or poster presentation at the Conference.

30 March - 02 April 2008 Philadelphia, PA, United States

[5-th International Conference "Cooperation for Waste Issues"](#)

Primary topics - Legal and regulatory framework of waste management - Sanitary, environmental, institutional and economic aspects of waste management - Waste management technologies, equipment and services - Landfill construction and operation - Radioactive and toxic waste treatment - Wastewater treatment. Sludge management. Sludge fields - Air emissions. Gaseous emission treatment. Dust and slag management - Waste to energy - Informational, programming and metrological support - Environmental insurance systems, certification, standardization, audit, due diligence review - Public participation in waste management.

02 - 03 April 2008 Kharkiv, Ukraine

[2008 Waste-to-Fuels Conference & Trade Show](#)

The Waste-to-Fuels Conference & Trade Show will provide a forum for informing the public and private sectors of the economic and environmental benefits of converting waste materials to alternative fuels such as biodiesel and ethanol as well as energy recovery. Attendees will have excellent networking opportunities and a chance to visit with exhibitors to preview the newest advances in alternative fuel production products and services. The conference will be designed to attract individuals and organizations/companies nationally.

06 - 08 April 2008 Orlando, Florida, United States

[4th Canadian Waste Resource Symposium](#)

The Atlantic Chapter of the Solid Waste Association of North America (SWANA) and the Nova Scotia Association of Waste Reduction Coordinators (NSAWRC) are jointly coordinating a comprehensive waste management conference. The overall conference theme of Navigating Towards 60% Diversion is to gather the waste reduction and landfill management specialists from across the globe to explore and share their best management practices.

13 - 16 April 2008 Halifax, Canada

[The 9th China Int'l Environmental Protection Exhibition \(CIEPEC+EPTEE 2008\)](#)

CIEPEC comes to Shanghai , joining hands with EPTEE to create the top ranking environmental protection event in Asia. The 9th China Int'l Environmental Protection Exhibition (CIEPEC+EPTEE 2008) will be held on Apr. 27th-29th, 2008 at Intex Shanghai and Shanghai Mart, providing 30,000 sq. m . of exhibition floor space, and attracting 750 exhibitors (approximately 1,200 booths). From 2008, CIEPEC+EPTEE will be held biennially in Shanghai . Through this win-win cooperation, CIEPEC+EPTEE will become the top-ranking environmental protection exhibition in Asia , with the most exhibitors, the highest specialization and the most advanced technologies.

27 - 29 April 2008 Shanghai, China, People's Rep.

[WasteExpo 2008](#)

WasteExpo is North America's largest solid waste and recycling tradeshow serving both the private and public sectors.

05 - 08 May 2008 Chicago, Illinois, United States

[IFAT 2008 - 15th International Trade Fair for Water - Sewage - Refuse](#)

In 2008 IFAT - the international trade fair for the environmental sector - will revolve

around environmental solutions. It will be oriented to the future of environmental technology, focusing on everything from high tech to low tech including comprehensive solution approaches.

05 - 09 May 2008 Munich, Germany
