

Annual Sponsorship

Garwer Wastexchange offers global exposure that no other environmental industry venue can match. Our annual sponsorships get you exposure on virtually every page of the Garwer Wastexchange web site and on every edition of our biweekly newsletter. 12 months is too long for you? We are also offering 6-month sponsorships at very low cost. [Contact us](#) for more information

Featured Events

Highlight Your Event in the Next Issue of our Newsletter

Looking to get the word out? If you would like to include an event or program in the next editions of the Wastexchange.co.uk Newsletter, contact us by email at marketing@garwer.com. We will highlight your event in the **Featured Event** section of our biweekly **Newsletter**, circulated to more than 2,000 international recyclers, traders, waste management companies and consultants, public body etc... [Italy: German Incinerator to Burn Naples' Waste](#)

10/01/2008 (corriere.it)

That "money has no smell" has been universally acknowledged since the days of Vespasian. But in some cases, even urban waste can lose its stench, for example when it turns into hard cash. In Campania, they don't know what to do with the huge line of five million "ecoballs", as the enormous packages of distinctly unecological urban waste are euphemistically dubbed....[continue](#)

[New year news round-up: waste policy](#)

08/01/2008 (endseuropedaily.com)

Germany's Bundesrat, the upper house of parliament, representing the country's regions, has approved proposed amendments to Germany's packaging waste law that are aimed at removing free-riders from a national recycling scheme....[continue](#)

[UK: Waste & Recycling - Review of the Year 2007](#)

08/01/2008 (edie.net)

The WEEE Directive and the Waste Strategy Review for England took centre stage in the world of waste this year, with the latter sparking debate over the best ways to tackle the country's rubbish. The Local Government Association complained that the UK was the dustbin of Europe. Local authorities were granted powers allowing them to team up on waste management to create efficient 'super-sites' to treat and dispose of municipal rubbish....[continue](#)

[UK: Funding boost for tyre recycling](#)

24/12/2007 (edie.net)

A grant of more than £130,000 has been pumped into a London-based tyre recycling facility to boost the disposal of used tyres in the UK. The Enhance Capital Fund, the support service for green enterprises in London, announced the grant to London Tyre Recycling this week....[continue](#)

[UK: Construction waste under review](#)

24/12/2007 (edie.net)

Proposed changes to regulations for dealing with construction, demolition and excavation waste have been published for consultation. Defra, the Welsh Assembly Government and the Environment Agency launched the informal consultation on rules for the recovery and disposal of inert waste such as brick, concrete and subsoil on Wednesday...[continue](#)

[A new technology for municipal and industrial wastewater treatment with low environmental impact](#)

An Italian research institute has developed a new technology for wastewater treatment, characterised by high biomass concentration and negligible sludge production. When applied to industrial wastewater, it allows integrating biological degradation and chemical oxidation, which is useful to make biodegradable refractory contaminants. The institute is interested in technical cooperation with companies producing wastewater or developing solutions for textile and tannery wastewater treatment.

(Ref: 07 IT SUTC OJEZ - 11/01/2008)

[Innovative wastewater treatment system for heavy metals, removing metal ions by inducing sedimentation, without the use of any chemicals](#)

An Israeli SME, expert in the application of breakthrough and innovative technologies

and solutions for industrial wastewater treatment, purification and recycling has developed a line of innovative patented systems designed to remove heavy metals including copper, zinc, chromium, cadmium, and nickel from manufacturing discharge waters without the use of chemicals, which enables a factory to reuse the water it employs in manufacturing. The company is seeking partners for joint ventures.

(Ref: 07 IL ILMI OJFT - 03/01/2008)

[Revolutionary cyanide removal system for treating industrial wastewater - absolute decontamination from cyanide without use of chemicals](#)

An Israeli leading-edge SME has developed an innovative patented system designed to remove cyanide from manufacturing discharge waters without using chemicals, which enables a factory to reuse the water it employs in manufacturing. The company seeks partners for joint venture.

(Ref: 07 IL ILMI OJBN - 03/01/2008)

[Advanced microbiological solutions for unconventional industrial wastewater treatment \(high-pollution, hard-to-degrade substances, etc.\)](#)

An Italian SME focusing on chemical and biological technologies to eliminate pollution from wastewater has developed specific and innovative microbiological treatments for waters that cannot be drained by traditional WWTPs due to high pollution rate. This is accomplished by means of microbiological products, to be balanced with the chemical section of WWTPs, in order to obtain a treatment that meets the customers' needs. The company is looking technical cooperation on specific requirements.

(Ref: 07 IT LADA OJDS - 02/01/2008)

[New technology based on bio-flotation for sewage treatments and water recycling](#)

An Italian research centre has developed a system based on bio-flotation to treat liquid industrial wastes containing detergents and dyes. The system uses a specific ejector allowing preparation of the appropriate conditions to biologically treat pollutants. This new method produces very little sludge with comparison to existing technologies, and is low-cost. The centre is looking for companies interested in applying this method to their industrial processes.

[7th Conference & Exhibition 'Biogas - efficient and reliable'](#)

The German Biogas Association will hold their 17th Annual International Conference on

anaerobic digestion of agricultural residues and energy crops, biogas production and treatment incl. renewable energy. The huge 3 days conference event and exhibition attracts more than 1000 participants and is accompanied by study tours.

15 - 17 January 2008 Messe Nürnberg, Germany

[Central European Biomass Conference 2008](#)

The Central European Biomass Conference 2008 – Mitteleuropäische Biomassekonferenz 2008 is an international conference on political and technical developments in the field of bioenergy. Within this high level experts congress bilateral B2B meetings for companies will be organised. This Matchmaking Event for technology and know-how co-operations offers the opportunity to meet business partners, bioenergy experts or research institutions and to discuss there in individual talks

16 - 19 January 2008 Graz, Austria

[ECN Workshop 'The future of Anaerobic Digestion of Waste in Europe'](#)

ECN's next workshop on anaerobic digestion will be held in Nürnberg (North of Munich). The Workshop will be a parallel session of the common event of ECN with the German Biogas Association which will hold their 17th Annual Conference "Biogas - efficient and reliable" incl. an exhibition with more than 1000 participants. Study tours to AD plants for waste are intended.

16 - 17 January 2008 Messe Nürnberg, Germany

[International Electronics Recycling Congress](#)

The 7th International Electronics Recycling Congress International Electronics Recycling Congress (IERC) will be held in Hamburg, Germany. More than 300 delegates from industry, authorities and academia will discuss and present the newest information and challenges of the WEEE recycling business.

16 - 18 January 2008 Salzburg, Austria

[4th Waste Management Finance Forum](#)

The Waste Management Finance Forum is supported by Defra and approved by the Chartered Institution of Wastes Management. With a challenging programme which combines policy briefings, finance sessions, and highly focused case studies, the event will allow you to meet key players and to gain an unrivalled insight into this rapidly changing industry.

24 - 25 January 2008 London, United Kingdom

[BIOENERGY WORLD 2008](#)

Bioenergy World 2008 is a ground breaking exhibition for the international bioenergy community which brings together actors from across the three bioenergy sectors - solid,

liquid and gaseous - as well as all related stakeholder groups. Staged within the internationally renowned agricultural exhibition Fieragricola 2008, the event will attract around 150 000 visitors from the global agricultural and bioenergy community
07 - 10 February 2008 Verona, Italy

[US Composting Council 16th Annual Conference & Trade Show](#)

The largest conference & exhibition in north america for the composting, wood waste & organics recycling industry
09 - 12 February 2008 Oakland, CA, United States

[International Conference '7th ASA Waste Days - Performance of MBT'](#)

The main European event for the practitioners in mechanical biological treatment MBT will take place in Hanover, Germany, 13th to 15th of February 2008. It includes an exhibition and a study tour. The international Conference (German/English translation) organised by the German MBT organisation ASA will reflect what is achievable in terms of treatment of municipal solid waste by means of the MBT option. The presentation of existing techniques demonstrate the scope and performance of the different MBT concepts on a European level. Download the programme
13 - 15 February 2008 Congress Centre Hannover, Germany

[RecShow `08](#)

Who should exhibit? Manufacturers, distributors, suppliers, entrepreneurs, consultants, market developers, waste management firms, landfill gas and leachate technology vendors: all companies and persons wishing to reach the waste management market in the Middle East.
17 - 20 February 2008 Dead Sea, Jordan

[CODIS 2008](#)

CODIS 2008 is a platform where scientists, practitioners and authorities meet to discuss current issues and future trends. The main focus of CODIS 2008 will be on the quality of compost and digestate derived from source separated biogenic waste and animal manure. Beneficial and adverse impacts on the environment and plant production due to the application of compost and digestate and the production of renewable energy will be considered.
27 February 2008 Solothurn, Switzerland

[EKOTECH](#)

9th Fair of Ecology, Municipal Waste Services, Recyclable Materials, Waste Management and Recycling EKOTECH
04 - 06 March 2008 Kielce, Poland

[IRWM 2008](#)

Irish Recycling & Waste Management 2008

05 - 06 March 2008 Dublin, Ireland

[2008 Nordic Biogas Conference and exhibition](#)

The conference is organized by biogas representatives from all five Nordic countries. The target with the conference is to exchange best practise information of production and utilization of biogas between the Nordic countries and to establish cooperation and commercial contacts. Target group for the conference are primarily actors that work with biogas like municipalities, local waste management, farmers and consultants, but also decision makers and politicians.

05 - 07 March 2008 Hilton Hotel, Malmö, Sweden

[International Automobile recycling Congress](#)

International Automobile recycling Congress

12 - 14 March 2008 Munich, Germany

[GLOBE 2008](#)

GLOBE biennial events bring together participants from across the world to address issues that lie at the heart of sustainable development and environmental management, while generating new business opportunities

12 - 14 March 2008 Vancouver, BC, Canada

[The 23rd International Conference on Solid Waste Technology and Management](#)

Researchers, educators, government officials, students, consultants, managers, community leaders, and others with expertise in solid waste are invited to submit papers for oral or poster presentation at the Conference. -To submit an abstract for oral or poster presentation, click here . -For a printable version of the Call For Papers that can be posted, click here . -For exhibiting information, click here

30 March - 02 April 2008 Philadelphia, PA, United States

[5-th International Conference "Cooperation for Waste Issues"](#)

Primary topics - Legal and regulatory framework of waste management - Sanitary, environmental, institutional and economic aspects of waste management - Waste management technologies, equipment and services - Landfill construction and operation - Radioactive and toxic waste treatment - Wastewater treatment. Sludge management. Sludge fields - Air emissions. Gaseous emission treatment. Dust and slag management - Waste to energy - Informational, programming and metrological support - Environmental insurance systems, certification, standardization, audit, due diligence review - Public participation in waste management.

02 - 03 April 2008 Kharkiv, Ukraine

[2008 Waste-to-Fuels Conference & Trade Show](#)

The Waste-to-Fuels Conference & Trade Show will provide a forum for informing the public and private sectors of the economic and environmental benefits of converting waste materials to alternative fuels such as biodiesel and ethanol as well as energy recovery. Attendees will have excellent networking opportunities and a chance to visit with exhibitors to preview the newest advances in alternative fuel production products and services. The conference will be designed to attract individuals and organizations/companies nationally.

06 - 08 April 2008 Orlando, Florida, United States

[4th Canadian Waste Resource Symposium](#)

The Atlantic Chapter of the Solid Waste Association of North America (SWANA) and the Nova Scotia Association of Waste Reduction Coordinators (NSAWRC) are jointly coordinating a comprehensive waste management conference. The overall conference theme of Navigating Towards 60% Diversion is to gather the waste reduction and landfill management specialists from across the globe to explore and share their best management practices.

13 - 16 April 2008 Halifax, Canada

[The 9th China Int'l Environmental Protection Exhibition \(CIEPEC+EPTEE 2008\)](#)

CIEPEC comes to Shanghai , joining hands with EPTEE to create the top ranking environmental protection event in Asia. The 9th China Int'l Environmental Protection Exhibition (CIEPEC+EPTEE 2008) will be held on Apr. 27th-29th, 2008 at Intex Shanghai and Shanghai Mart, providing 30,000 sq. m . of exhibition floor space, and attracting 750 exhibitors (approximately 1,200 booths). From 2008, CIEPEC+EPTEE will be held biennially in Shanghai . Through this win-win cooperation, CIEPEC+EPTEE will become the top-ranking environmental protection exhibition in Asia , with the most exhibitors, the highest specialization and the most advanced technologies.

27 - 29 April 2008 Shanghai, China, People's Rep.
