[New research into recycling household plastics to be launched in Scotland](#)

27/06/2008 (environmental-expert.com)

New research from WRAP has found that recycling not just plastic bottles but other plastic packaging as well can be cost-effective and environmentally friendly...[continue](#)

[EU waste policy not fit for future](#)

27/06/2008 (environmental-expert.com)

Environmental NGOs are deeply disappointed with this week's European Parliament vote on the revised Waste Framework Directive. Parliament accepted a pre-arranged deal that sets inadequate European recycling targets and no target for waste prevention...[continue](#)

[New hazardous waste research shows map of a growing market](#)

27/06/2008 (environmental-expert.com)

In 2007 the amount of hazardous waste that was collected and treated in Europe accounted to 67.6 million tonnes. It represents only a small percent of the total waste generated. However, its toxicity, technical/infrastructure expertise needed to handle them and the harmful impact it could have on the environment have made hazardous waste a cause of concern...[continue](#)

[LIFE and waste recycling: Innovative waste management options in Europe](#)

27/06/2008 (europa.eu)

This brochure examines the contribution the LIFE programme has made to promoting innovative waste management in Europe. It sets out the major European waste legislation and provides information on a series of LIFE projects engaged in innovative solutions to waste management through recovery, recycling or reuse...[continue](#)

[New EU waste legislation approved](#)

26/06/2008 (waste-management-world.)

A new directive has been put in place following the decision of MEPs to adopt amendments to EU waste legislation. Member states will now be required to draw up binding waste disposal and recycling targets and adhere to them. Waste prevention targets will be considered by the European Commission in future, and incineration of waste will be classified as a recovery operation providing it meets certain energy efficiency criteria....[continue](#)

[UK: Tyres help cement firm cut emissions](#)

26/06/2008 (edie.net)

A major cement producer says it has reduced nitrogen oxide emissions from one of its plants by 40% after using chipped tyres as a substitute fuel. CEMEX UK said its most recent trial of the fuel at its plant in Rugby met and exceeded a number of "critical success factors" agreed with the industry regulator, the Environment Agency. A draft report published for public consultation...[continue](#)

[India: Delhi's e-waste to be recycled in Haridwar](#)

16/06/2008 (indiatimes.com)

Delhi and the NCR will soon be able to 'legally' recycle their e-waste when a plant for the purpose is set up in Haridwar in the coming months. The plant will be the first of its kind in north India with a recycling capacity of 12,000 tonnes per annum...[continue](#)

[EU waste deal decimates recycling targets](#)

13/06/2008 (EEB)

The debate on recycling and prevention targets in the revision of the EU's main waste directive has now entered a new stage, with a proposed deal at a third informal meeting between the Commission, Slovenian Presidency and a European Parliament delegation on Monday....[continue](#)

[UK: LCA \(Life Cycle Assessment\) of Management Options for Mixed Waste Plastics](#)

09/06/2008 (letsrecycle.com)

WRAP - the Waste and Resources Action Programme - has released a life cycle assessment of a range of collection and recycling methods and compared them to traditional disposal methods such as incineration and landfill...[continue](#)

[IIRWM' 2008 - India International Recycle & Waste Management Exhibition & Conference](#)

IIRWM'2008 is the 1st ever comprehensive podium shared by the domestic and international industry leaders, providers and seekers addressing a network on public-private partnership and gaining valuable insight on countries planning & Implementation on various waste disposable management units, reducing - reusing - recycling of waste with highest technological investments and elevation of technological development in managing and solutions on Waste, Recycle and Waste-to-Energy.

16 - 18 August 2008 New Delhi, India

[2008 Global Waste Management Symposium](#)

The 2008 Global Waste Management Symposium (GWMS) will serve as a forum for the presentation of both applied and fundamental research and case studies on waste management. We invite the entire community of designers, facility owners and operators, policy makers, and researchers to participate.

07 - 10 September 2008 The Rocky Mountains of Colorado, United States

[RWM Birmingham](#)

The UK` s LEADING dedicated event for the Recycling & Waste Management Industry. RWM08 will take place between 16th and 18th September 2008 at the NEC, Birmingham.

16 - 18 September 2008 RWM Birmingham, United Kingdom

[The Composting Council Of Canada's 18th Annual National Conference](#)

The Composting Council of Canada is a national non-profit, member-driven organization with a charter to advocate and advance composting and compost usage. It serves as the central resource and network for the composting industry in Canada and, through its members, contributes to the environmental sustainability of the communities in which they operate

17 - 19 September 2008 Quebec, Canada

[13th International Battery Recycling Congress](#)

13th International Battery Recycling Congress

17 - 19 September 2008 Dusseldorf, Germany

[IFAT CHINA 2008 - 3rd International Trade Fair for Environmental Protection](#)

IFAT CHINA is the comprehensive exhibition on the Asian market for practice-oriented solutions in the key sectors for environmental protection and waste disposal including water supply, sewage, recycling, air pollution, environmental technology and

environmentally sound energy sources

23 - 25 September 2008 Shanghai (Pudong), China, People's Rep.

ExpoRecicla

International Exhibition for Industrial Recovery and Recycling, Waste Management and Waste-to-Value Systems. ExpoRecicla has been designed to make concrete solutions available and create business opportunities in these fields, and that is what sets it apart from other, more general environmental events.

24 - 26 September 2008 Zaragoza, Spain

1st International Conference on "Hazardous Waste Management"

The Conference will focus on innovative aspects of Hazardous Waste Management (including Organics, Non-Halogenated and Halogenated Solvents, Hydrocarbons, Pesticides, Explosives, PCBs, PCDDs/Fs, Heavy Metals, Asbestos, Nuclear Wastes, Salts, etc), presenting new technologies, describing the state of the art and related case studies, discussing the main controversial subjects, sharing experience among different countries, valuating social and financial balances. The Conference will include oral presentations, poster sessions, special sessions and workshops.

01 - 03 October 2008 Chania, Greece

World Conservation Congress

The World Conservation Congress is the world's largest and most diverse conservation event. Held every four years, the Congress aims to improve how we manage our natural environment for human, social and economic development. The previous Congress, held in Bangkok in November 2004, brought together 5,000 people from all corners of the world, to discuss, debate and decide on environmental and development issues.

05 - 14 October 2008 Barcelona, Spain

Eco-Tech Scandinavia Sustainable Innovation

Eco-Tech Scandinavia is an international meeting place that provides you with the opportunity to bring in new business and keep up to speed on developments in the whole environmental sphere. Swedish environmental technology is well to the fore in areas such as bioenergy, waste, recycling and sustainable development in society. The exhibition will feature new solutions for sustainable development and act as a platform for discussions on environmental work from a wide range of perspectives.

07 - 09 October 2008 Göteborg, Sweden

Eco-Tech Scandinavia

Eco-Tech Scandinavia – your venue for environmentally sustainable business

Expectations for environmental innovations and new technology are already high for the 11th biannual Eco-Tech Scandinavia environmental technology trade show on October 7-9, 2008 in Göteborg

07 - 09 October 2008 Göteborg, Sweden

RENEXPO 2008

International Trade Fair and Conference for Renewable Energy From the 09th to 12th of October 2008 the Augsburg trade fair presents for the ninth time the complete spectrum of renewable energy and energy efficient building and renovation. Main Focus: IHE Wood Energy (HolzEnergie) Combined Heat and Power (CHP), Solar Technology, Heat Pumps, Geothermal Energy, Reconstructa

09 - 12 October 2008 Augsburg, Germany

ORBIT 2008

The 6th Edition of Europe's largest conference of biological waste management will be held at the University of Wageningen 13th to 15th of October 2008. The Call for papers addresses the full range of organic waste, recycling and upgrading issues

13 - 15 October 2008 Wageningen, Germany

WASTECON 2008

Showcase of Solid Waste Professional, Environmental and Organizational leadership

21 - 23 October 2008 Tampa, Florida, United States

Canadian Waste & Recycling Expo

Celebrating their 11th year, CWRE is Canada's ONLY national tradeshow serving the waste, recycling and public works market. Focus areas include collection, hauling, processing and disposal of waste; materials recycling; municipal recycling programs including blue box programs, MRFs, scrap metals, C&D, wood, plastic, paper, auto, tires, fiber and more.

05 - 06 November 2008 Toronto, Canada

Venice 2008 - Second International Symposium on Energy from Biomass and Waste

The aim of the Venice 2008 Symposium is to focus on the advances made in the application of technologies for energy recovery from biomass and waste. The programme of the Symposium will last four days (three days of scientific sessions and one day for technical tours) and will include oral sessions, a poster session and a small exhibition by companies working in the field.

17 - 20 November 2008 Venice, Italy

[POLEKO 2008](#)

Next edition of the International Ecological Fair POLEKO will be organised on 17 – 20 November 2008. The time of ecology has come for Poland and Europe. You can get convinced about that at the POLEKO International Ecological Fair. The fair takes place at the grounds of the Poznan International Fair in November each year.

17 - 20 November 2008 Poznan, Poland

[POLLUTEC 2008](#)

23 rd international exhibition of Environmental Equipment, Technologies and Services

02 - 05 December 2008 Lyon, France

[Environment Technology Indonesia 2008](#)

The 16th International Exhibition on Equipment and Systems for Pollution Control and Environmental improvement.

03 - 06 December 2008 Jakarta, Indonesia
