

Annual Sponsorship

Garwer Wastexchange offers global exposure that no other environmental industry venue can match. Our annual sponsorships get you exposure on virtually every page of the Garwer Wastexchange web site and on every edition of our biweekly newsletter. 12 months is too long for you? We are also offering 6-month sponsorships at very low cost. [Contact us](#) for more information

Media Kit 2008 for Events

Reach one the the world's largest audience of waste recycling industry professionals

We can provide your Event (Trade fair, Conference/Seminar, Workshop etc...) with a great exposure troughout a qualified audience of waste recycling professionals in the industry, government and consulting. Find here our [2008 media Kit for Exhibitions](#): should you require any further information, don't hesitate to contact us at [info\(at\)garwer.com](mailto:info@garwer.com)

[See the Technology Offer/Request section...](#)

[Biotechnology for the conversion of waste into added value products](#)

A Spanish research centre has developed a new biotechnology that, using an optimised fermentation process, transforms agro-food waste (i.e. cheese whey) into added value products (i.e. bio-ethanol). The used fermentative microorganisms are immobilised in a hydrogel matrix. The centre is looking for agro-food industries that want to apply this technology to their specific wastes. (Ref: 08 ES NWPT OJQZ - 13/02/2008)

[New procedure for composting of solid-phase animal manure](#)

A Hungarian SME has developed a new procedure for composting of solid- and liquid-phase animal manure. The offered composting technology is used for composting of different kinds of solid- and liquid-phase feedlot manures. It makes a compost end product that has high fertilising value, organic matter and harmonious trace element content. The technology can be used by all kinds of animal husbandry companies. The SME is looking for industrial partners interested in license & commercial agreements. (Ref: 08 HU HUBU OJQJ - 13/02/2008)

[Waste Processing Technology](#)

A UK SME has developed a system that can reduce the volume of virtually any type of solid waste by as much as 400%. It's quick, easy, infinitely adjustable, and it is the ideal system for landfill, recycling facilities, transfer station, gasification plants, incinerators, pyrolysis plants, scrap tyre processing. The system can be adjusted to handle any output size needed, from several inches down to microns. The company is looking for partners to further develop and license the product. (Ref: 08 GB SWRD OJKA - 06/02/2008)

[Innovative composting kit for domestic disposal of organic waste](#)

An Italian company proposes an innovative composting kit that represents an innovative and very efficient solution for the composting of organic material produced at domestic level. The kit allows turning kitchen and garden waste into an excellent natural compost usable for house plants and gardens. The Italian company is looking for commercial agreement with technical assistance. (Ref: 08 IT LADA OJLR - 04/02/2008)

[Energy and Products from Waste Incineration Technology](#)

An Estonian company is offering a waste incineration technology that enables to process almost all types of municipal and industrial solid waste with the aid of a unique fire separation process in furnaces with sparged molten slag. Environmental security is ensured. The company is looking for transfer of the waste processing technology, and for industrial partners to develop production of construction materials from molten slag - mineral wool, light expanded clay aggregates and cement clinkers. (Ref: 08 EE EETU OJM5 - 31/01/2008)

[RecShow `08](#)

Who should exhibit? Manufacturers, distributors, suppliers, entrepreneurs, consultants, market developers, waste management firms, landfill gas and leachate technology vendors: all companies and persons wishing to reach the waste management market in the Middle East.

17 - 20 February 2008 Dead Sea, Jordan

[4th International Scrap Success Strategies Conference](#)

One of the largest international conference on ferrous and non-ferrous scrap in Europe.

27 - 28 February 2008 Moscow, Russia

[CODIS 2008](#)

CODIS 2008 is a platform where scientists, practitioners and authorities meet to discuss current issues and future trends. The main focus of CODIS 2008 will be on the quality of compost and digestate derived from source separated biogenic waste and animal manure. Beneficial and adverse impacts on the environment and plant production due to the application of compost and digestate and the production of renewable energy will be considered.

27 February 2008 Solothurn, Switzerland

[3rd Conference on Sensor-based Sorting](#)

Because of the great international response a third edition of the symposium "Sensor Based Sorting" will take place under the scientific management of Prof. Dr.-Ing. Thomas Pretz and Prof. Dr.-Ing. Hermann Wotruba in the Eurogress Aachen from 04th to 06th of March 2008. The presentations will deal with sorting operations which detect diverse material characteristics of the feed material by the use of intelligent sensor technology

followed by a selective discharge of positive identified particles. Hereby the progresses in sorting e.g. of minerals, scrap metals, plastics, waste paper, RDF, packaging waste, glass cullet and agricultural products will be addressed.

04 - 06 March 2008 Aachen, Germany

[Recycling Middle East 2008](#)

Recycling Middle East 2008 is the definitive platform for industry leaders to network, exchange knowledge and meet potential business partners in the fields of recycling and waste management.

[The 23rd International Conference on Solid Waste Technology and Management](#)

Researchers, educators, government officials, students, consultants, managers, community leaders, and others with expertise in solid waste are invited to submit papers for oral or poster presentation at the Conference. -To submit an abstract for oral or poster presentation, click here . -For a printable version of the Call For Papers that can be posted, click here . -For exhibiting information, click here

30 March - 02 April 2008 Philadelphia, PA, United States

[4th International Conference & Exhibiton "Aluminium Recycling"](#)

The Conference is organized by Alusil-MVT under the support of Organization of European Aluminium Refiners and Remelters (OEA), Aluminium Extruders Association (AEA) and The Council of Secondary Non-Ferrous Metallurgy Industrial Enterprises.

01 - 05 April 2008 Saint Petersburg, Russia

[5-th International Conference "Cooperation for Waste Issues"](#)

Primary topics - Legal and regulatory framework of waste management - Sanitary, environmental, institutional and economic aspects of waste management - Waste management technologies, equipment and services - Landfill construction and operation - Radioactive and toxic waste treatment - Wastewater treatment. Sludge management. Sludge fields - Air emissions. Gaseous emission treatment. Dust and slag management - Waste to energy - Informational, programming and metrological support - Environmental insurance systems, certification, standardization, audit, due diligence review - Public participation in waste management.

02 - 03 April 2008 Kharkiv, Ukraine

[2008 Waste-to-Fuels Conference & Trade Show](#)

The Waste-to-Fuels Conference & Trade Show will provide a forum for informing the public and private sectors of the economic and environmental benefits of converting waste materials to alternative fuels such as biodiesel and ethanol as well as energy recovery. Attendees will have excellent networking opportunities and a chance to visit with exhibitors to preview the newest advances in alternative fuel production products and services. The conference will be designed to attract individuals and organizations/companies nationally.

06 - 08 April 2008 Orlando, Florida, United States

[ISRI Convention & Expo 2008](#)

The 2008 Convention and Exposition will celebrate ISRI's 20 years as the Voice of the Recycling Industry and explore the Next 20 years

06 - 10 April 2008 Las Vegas, United States

[4th Canadian Waste Resource Symposium](#)

The Atlantic Chapter of the Solid Waste Association of North America (SWANA) and the Nova Scotia Association of Waste Reduction Coordinators (NSAWRC) are jointly coordinating a comprehensive waste management conference. The overall conference theme of Navigating Towards 60% Diversion is to gather the waste reduction and landfill management specialists from across the globe to explore and share their best management practices.

13 - 16 April 2008 Halifax, Canada

[Innovation for Sustainable Production 2008](#)

This international event aims at assembling in a pleasant and stimulating environment different disciplines and technologies on their proper themes, while offering the opportunity to join up and exchange knowledge and experience from diverse fields of innovation and technology to enhance innovative methods for a sustainable production.

22 - 25 April 2008 Bruges, Belgium

[The 9th China Int'l Environmental Protection Exhibition \(CIEPEC+EPTEE 2008\)](#)

CIEPEC comes to Shanghai , joining hands with EPTEE to create the top ranking environmental protection event in Asia. The 9th China Int'l Environmental Protection Exhibition (CIEPEC+EPTEE 2008) will be held on Apr. 27th-29th, 2008 at Intex Shanghai and Shanghai Mart, providing 30,000 sq. m . of exhibition floor space, and attracting 750 exhibitors (approximately 1,200 booths). From 2008, CIEPEC+EPTEE will be held biennially in Shanghai . Through this win-win cooperation, CIEPEC+EPTEE will become the top-ranking environmental protection exhibition in Asia , with the most exhibitors, the highest specialization and the most advanced technologies.

27 - 29 April 2008 Shanghai, China, People's Rep.

[IFAT 2008 - 15th International Trade Fair for Water - Sewage - Refuse](#)

In 2008 IFAT - the international trade fair for the environmental sector - will revolve around environmental solutions. It will be oriented to the future of environmental technology, focusing on everything from high tech to low tech including comprehensive solution approaches.

05 - 09 May 2008 Munich, Germany

[WasteExpo 2008](#)

WasteExpo is North America's largest solid waste and recycling tradeshow serving both the private and public sectors.

05 - 08 May 2008 Chicago, Illinois, United States

[Waste - The Social Context '08: Urban Issues and Solutions](#)

Sustainable waste management is critical to the health and well-being of all people. While many conferences focus on the technical aspects of waste management, Waste—The Social Context '08 is unique in addressing the environmental, social and economic implications. Topics will include public perceptions and behaviour, social forces influencing waste streams, environmental policy, waste management in urban settings, stakeholder participation, developing countries and countries in transition, international trade in waste products, and waste economics, among others. The keynote speaker will be Heather Rogers, acclaimed journalist, filmmaker, and author of "Gone Tomorrow: The Hidden Life of Garbage." Approximately 400 international decision-makers, researchers, practitioners and other stakeholders are expected to attend the conference.

11 - 15 May 2008 Alberta, Canada

[China International Recycling Conference and Exhibition](#)

Two new divisions, which are of Scrap Paper and of End of Life Vehicles will be added to 2008 China International Recycling Conference, compared with the Recycling Policy, System Construction and Environment-Friendly Division, Market, Trade and Financing Division, Ferrous and Non-ferrous Division and E-scrap Division of 2007 China International Recycling Conference

18 - 19 May 2008 Guangzhou, China, People's Rep.

[PLASTPOL](#)

12th International Fair of Technologies, Equipment and Machines for Plastics Processing, Packaging, Industrial design, Plastics, Rubber processing, Recycling

27 - 30 May 2008 Kielce, Poland

[World Bioenergy 2008](#)

This major global bioenergy get-together is based on the unique "Taking you from Know-How to Show-How" concept, combining conference sessions, field excursions and tradeshow into one comprehensive event.

27 - 29 May 2008 Jönköping, Sweden.
